Proprietor:-

Mr. Nandish Shah

B.E. Electrical (1992)

Birla Engineering College

Chartered Engineer

Valuer (Plant & Machinery)

PGD in Financial Management

PGD in Business Management

Professional Experience:

TWENTY SEVEN years of experience in Electrical Consultancy services including four years of work experience as an associate consulting engineer with M/s. Dalal Consultants & Engineers Limited, Ahmedabad.

Membership of Institutions:

Institution of Engineers (IE)

Indian Society of Lighting Engineers (ISLE)

Indian Society of Heating, Refrigerating & Air-conditioning Engineers (ISHRAE)

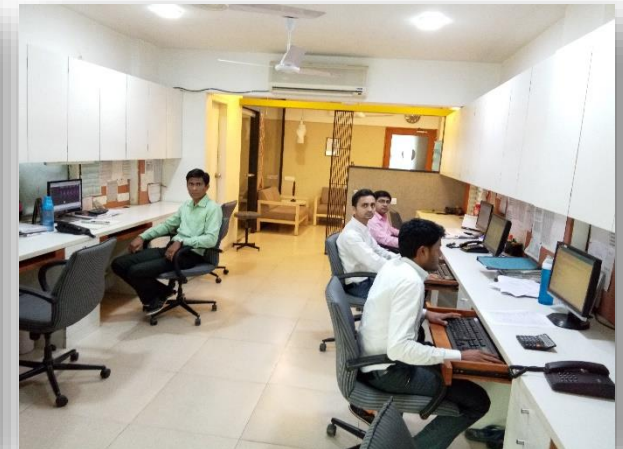

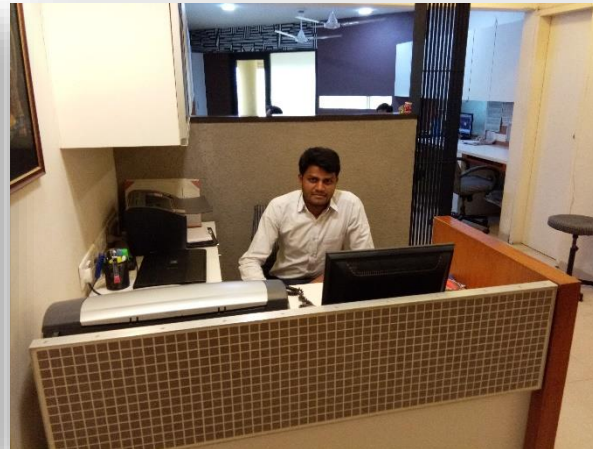

Academic Association:

Visiting faculty - Electrical Engineering with CEPT

School of Architecture

School of Building Science & Technology

School of Interior Design

Since 1997

Features

5

Philosophy:

Our philosophy is to give customer value added services. In search of this we look at the project in totality. Our prime focus is not only optimizing implementation or running cost individually but the Life Cycle Cost.

Overview of Services:

We are in the field of Electrical Consultancy services for various Industrial Projects, Commercial Buildings, Hospitals, Residential projects, Hotels, Resorts, Multiplexes and Amusement Parks.

We provide basic and detailed engineering services in the field of Electrical right from estimation, planning, scheduling and designing. Services conform to all the relevant Indian and International standards.

Infrastructure:

ACE is equipped fully with trained technical personnel including Principal, Key Personnel, Design Engineers with required drafting & administrative support

TYPE OF PROJECTS:

- **Stadiums**
- **Business & Exhibition Centres**
- **Schools, Educational & Institutional Projects**
- **Show rooms**
- **Hospitals**
- **Industrial & CNG station Projects**
- **Corporate Offices , Banks & Complexes**
- **Residential Schemes**
- **Private Residences**
- **Malls**
- **Hotels & Resorts**
- **Water Parks**

Designing & Planning of HT / LT Power System:

Electrical System Design calculations, Preparation of electrical single line diagrams, metering, protection and interlock schemes, Electrical Load Analysis, Identification of load center, Switchyard Layouts, Sub-station Designs and Electrical Equipment Layouts, Relay Co-ordination Schemes, Preparation of Power drawings and Cable routing networks for Sub-station, Utility area, Various production areas in the Plant Building, Cable tray and cable trench planning
Preparation of Cable Schedules

Designing of Emergency Power Supply System:

Designing of Diesel Generator ratings and Room Lay-outs, Emergency power Distribution schemes to feed Power to essential equipment, Manual or Auto changeover schemes for D.G. set and Electricity Board's supply and associated Interlocking schemes

Designing of Power Factor Improvement System:

Designing of Capacitor requirements for the Electrical system
Automatic or Manual mode compensation as per the Project requirements

Designing of Harmonics system:

Harmonics Analysis, Harmonic studies & Active Harmonic Filter planning to keep Harmonics as per IEEE guidelines

Designing of Earthing System:

Designing of Earthing system
Preparation of Earthing Layouts

Designing of Lightning Protection System:

Designing of Lightning Protection system
Preparation of Lightning Protection Layout.

Designing of Lighting System:

Design of Lighting system and Lux level calculations for various areas. Preparation of Lighting drawings, Design and distribution schemes for Lighting, Selection of Light fixtures. Preparation of Bills of Quantity. External Lighting system design. Emergency Lighting System design

Designing of Low Voltage & UPS System:

CCTV camera & Access Control System
Public Address & Music System
Telephone , TV and Networking System
Fire Detection & Alarm System
Nurse Calling System
UPS Power distribution Scheme

Cost Estimates:

Preparation of Preliminary and final cost estimates for supply and installation of the entire Electrical system

Designing of Tender Documents for Electrical System:

Preparation of Technical specifications for various Electrical equipment / material. Preparation of Technical specifications for Erection, testing and Commissioning of Electrical Works. Preparation of Bills of Quantity.
